Mudgee 2850

MDEG's Website www.mdeg.org.au

MDEG Committee

- Our committee is elected annually at the AGM and includes the Chairperson, Treasurer, Secretary and committee members.
- Committee meetings are held three times a year.
- Between these meetings, the Committee utilises email for discussion and decisions.

MDEG Membership

- All members receive regular updates about issues, events and projects via email. Discussion and contributions are welcome.
- Working groups on specific projects are set up from time to time.
- General members are welcome to volunteer/assist in their areas of interest and support decision making via participation in working groups.

MDEG Events

- Social events are held at least three times a year, which gives members the opportunity to relax together and informally discuss issues and projects.
- MDEG members and friends will participate in events associated with projects and actions of local, regional and national environmental importance.

mudgee district environment group

towards a sustainable Mudgee

ABOUT MDEG

Mudgee District Environment Group (MDEG) aims to:

- Provide information about environmental problems and solutions
- Lobby, State and Federal governments to take environmental action
- Encourage individuals to take environment action in the home, school and workplace.
- Engage with the community to preserve and maintain the district's natural environment
- Support environmental campaigns of local, regional, national and international significance.

MDEG began meeting in 1989 to highlight global issues like climate change, deforestation and recycling under the theme "think globally, act locally".

Our activities have included membership of Council committees, taking part in biodiversity surveys, bush regeneration, tree planting, public meetings, information stall and supporting national and state environmental campaigns. More recently we've focused on the environmental and social impacts of expanding local coal mines and the need to protect areas like the Great Dripping Wall. MDEG promotes renewable energy.

We welcome new members to join in our current activities aiming specifically to make Mudgee more sustainable.

MDEG ACTIVITIES

include:

- Letter writing
- Submissions
- Information distribution
- Media communication
- Public meetings
- Demonstrations
- Street stalls
- Lobbying politicians
- Community action
- Bush regeneration
- Fundraising
- Working groups

SPECIAL FOCUS AREAS

Energy

Renewable energy and energy efficiency in households, business, industry and in the community.

Mining

Mining impacts, proposals and policies, best practice and contribution to global warming.

Water

Water use and efficiency in households, business, industry and the community.

Biodiversity

Conservation and regeneration of natural flora and fauna and preservation of ecological communities.
